# Take your jewelry one step further

This collection gives you the freedom to connect medallions with almost any piece of your Helén jewelry. You can even stack more medallions to one clip to get a completely unique look. You can combine your medallion from a necklace with your earrings or a bracelet.

The system of connecting and disconnecting the medallion to the clip is very easy.

Place the cut part of the clip next to the cut part of the medallion in a relation of 90 degrees and push the elements together so they join. Clip Medallion
